**ACADIA FIRE PROTECTION DISTRICT NO. 4  
OF ACADIA PARISH, LOUISIANA  
NOTES TO THE FINANCIAL STATEMENTS  
AS OF AND FOR THE YEAR ENDED SEPTEMBER 30, 2011**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Acadia Fire Protection District No. 4 of Acadia Parish was created by the Acadia Parish Police Jury, as authorized by Louisiana Revised Statutes 33:1731-1902. The ordinance creating this district was dated February 14, 1989. The Acadia Fire Protection District No. 4 of Acadia Parish is governed by a five-member board of directors. The district was created for the purpose of acquiring buildings, machinery, and equipment, including both real and personal property to be used in providing fire protection to the property in the district.

The financial statements of the Acadia Fire Protection District No. 4 have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting standards. The most significant of the district's policies are described below.

**Reporting Entity**

GASB Codification Section 2100 established criteria for determining the governmental reporting entity and component units that should be included with the reporting entity. Oversight responsibility by the police jury is determined on the basis of the following criteria:

1. Appointment of governing board
2. Designation of management
3. Ability to significantly influence operations
4. Accountability for fiscal matters
5. Scope of public service

Because the police jury appoints the governing board and controls the scope of public service, the fire district was determined to be a component unit of the Acadia Parish Police Jury, the governing body of the parish and the governmental body with the oversight responsibility. The accompanying financial statements present information only on the funds maintained by the fire district and do not present information on the

**ACADIA FIRE PROTECTION DISTRICT NO. 4  
NOTES TO FINANCIAL STATEMENTS (continued)**

Police, jury, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

**Fund Accounting**

The accounts of the district are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the financial statements in this report into Governmental Fund Types and Account Groups as follows:

**Governmental Funds**

**General Fund** – The General Fund is the General Operating Fund of the district. It is used to account for all financial resources except those required to be accounted for in another fund.

**Fixed Assets and Long-Term Liabilities**

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. All Governmental Funds are accounted for on spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental Fund Operating Statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Fixed assets used in Governmental Fund Type Operations and infrastructure assets such as roads, etc. (General Fixed Assets) are accounted for in the General Fixed Assets Account Group rather than in the Governmental Funds. No depreciation has been provided on General Fixed Assets.

All fixed assets are recorded at historical cost.

**ACADIA FIRE PROTECTION DISTRICT NO. 4**  
**NOTES TO FINANCIAL STATEMENTS (continued)**

Long-term liabilities expected to be financed from Governmental Funds are accounted for in the General Long-Term Debt Account Group, not in the Governmental Funds.

The two account groups are not "Funds". They are concerned only with measurement of financial position. They are not involved with measurement of results of operations.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types is limited to exclude amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as Governmental Fund Type Expenditures or Fund Liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

**Basis of Accounting**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All Governmental Funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Property taxes are recorded as revenue when levied even though a portion of the taxes may be collected in subsequent years. Miscellaneous revenues are recorded when received in cash because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified Accrual Basis of Accounting when the related fund liability is incurred.

**Budgets and Budgetary Accounting**

The fire district adopts a budget annually. The budget is prepared on a basis consistent with Generally Accepted Accounting Principles (GAAP) and is adopted by the board of directors in an open meeting prior to the commencement of the year for which the budget is being adopted.

When actual revenues are falling to meet budgeted amounts by five percent or more and/or actual expenditures are exceeding budgeted amounts by five percent or more, the board of commissioners adopts an amended budget in an open meeting before year-end.

**ACADIA FIRE PROTECTION DISTRICT NO. 4**  
**NOTES TO FINANCIAL STATEMENTS (continued)**

*All appropriations lapse at year-end.*

**Ad Valorem Taxes**

Ad Valorem Taxes are levied by the Acadia Parish Sheriff's Department in September or October and are actually billed to the taxpayer in November. Taxes are due by December 31 of that year and are normally collected in December of the current year and in January and February of the following year. Billed taxes attach as an enforceable lien on property and become delinquent on January 1 of each year following the year the taxes are levied.

The Acadia Parish Sheriff's Department bills and collects property taxes using the assessed values determined by the parish assessor. The Acadia Parish Tax Collector sends the district's share of the property taxes collected directly to the district's board of commissioners.

Revenues from ad valorem taxes are budgeted in the year levied.
